COACH  
LEATHERWARE

## A Word about Our Leather

All COACH™ bags are made out of a completely natural, uncorrected, full-grain Glove Tanned Cowhide.

This remarkable leather — essentially the same leather that is used in the making of Baseball Gloves — has been cured in our own formulation of special tanning extracts in order to render it soft and supple to the touch.

It is beautiful to look at, sensational to feel, and yet it is as rugged as a Big League Baseball Mitt.

Most leathers today are heavily coated with paints and pigments that give them a uniform color and an almost blemish-free surface.

This leather is different.

The scars, scratches, veins, and wrinkles that are characteristic of full-grain leather have deliberately *not* been covered over with paint.

Instead, far more interesting gradations of color have been achieved with a clear aniline dye that *enhances* rather than conceals these beautiful natural markings — even as the application of linseed oil brings out the beauty of a finely-grained piece of wood.

COACH™ bags are soft and unconstructed. They can be hugged, squeezed and squashed. They can be worn every day.

With normal abuse the leather will gradually darken, ultimately taking on a most pleasing over-all burnished appearance . . . like the rich warm glow of a well-worn English Saddle.

## A Word about Our Factory

---

In the 35 years we have been manufacturing quality Leather Accessories, we have grown from a small workshop employing six people to one of the largest and best-known Leathergoods Factories in the country.

We are located right in the heart of downtown New York City, and it is here that our COACH™ Bags, Belts and Billfolds are created.

Drawing on New York's vast reservoir of skilled labor, we have assembled a unique work-force of exceptionally talented people who have come to this great City from all over the world.

The Factory is a city block in length. It is clean and light. Looking around, one is struck by the number of highly skilled individuals who are working entirely with their hands. Some brought their skills over from "the old country"; others received their training right here in our shop. Many have been with us for ten, fifteen, and even twenty years.

It is because of this marvelous diversity of peoples and skills, all working together under one roof, that we are able to maintain the high standard of quality for which our products are known.
